

## **FONDS DESCRIPTION (MBMS-31)**

### **Kinburn Boot & Shoe Company fonds**

1936

.05 cm of textual records

The Kinburn Boot & Shoe Company, financed by several Mahone Bay area investors, was apparently preparing to launch its operations in 1936, when a fire and resulting water damage destroyed the firm's manufacturing equipment and put an end to the company's activities.

Fonds consists of a chartered accountant's 1936 report to a committee of shareholders that was prepared at the behest of Frank L. Ernst following a fire that damaged the company's machinery.

The records were donated by Anne Ruel in 2007 (Acc. No. 2007-02).
